- 412B is an outcross sire that gives up nothing for muscle expression and body mass to obtain a calving ease projection in the top 2% of the Red Angus population.
- He is the top selling bull in the history of the Cline program in Kansas and his dam is from the famous Blockana cow family that excels for fleshing ability in a conservative stature with great mothering ability.
- 412B has been an excellent semen producer and we expect him to be available in high fertility SexedULTRA 4M this summer.
